

OVERVIEW

Aveo — Chevrolet's entry-level vehicle — is available in the 4-door sedan model or the Aveo5 hatchback model. Both models comfortably seat five, and include plenty of extra features. The Aveo5 interior, with the cargo flexibility of a hatchback, includes up to 42 cubic feet of cargo space⁴. The fuel-efficient Ecotec 1.6L DOHC engine delivers EPA-estimated miles per gallon of 27 city and 34 highway with the manual transmission. Includes standard OnStar[®] 1-year Safe & Sound Plan² and available XM Radio³, features that are usually expected in larger, more expensive cars.

MOBILITY PROGRAM WITH ONSTAR

The GM Mobility Program with OnStar is designed to help individuals and organizations who need to upfit their vehicles with aftermarket mobility equipment (e.g., hand controls, wheelchair lift). This is made possible with a cash reimbursement up to \$1,000 (\$1,200 on Chevy Express/GMC Savana vans including cutaways) plus two extra years of standard OnStar service (on OnStar-equipped vehicles) when qualified mobility equipment is installed on eligible, new GM vehicles. Vehicle must be adapted and a claim submitted within 12 months of the vehicle purchase/lease date.

To get an application or to learn more, visit us online at gmmobility.com or call 1-800-323-9935.

Detailed Notes:

1. Always use safety belts and the correct child restraint for your child's age and size, even in vehicles equipped with air bags. Even in vehicles equipped with Passenger Sensing System, children are safer when properly secured in a rear seat in an appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner Manual and child safety seat instructions for more information. **2. OnStar®** all rights reserved. Visit OnStar.com for system limitations and details. **3. XM Radio** requires a subscription, sold separately by XM after the first 90 days. Not available in Canada, Alaska or Hawaii. For more information, visit gm.xradio.com. **4. When properly equipped**, cargo and load capacity limited by weight and distribution. **5. Maximum Gross Vehicle Weight Rating (GVWR)**. When properly equipped, includes vehicle, passengers, cargo and equipment. **6. Maximum payload capacity** includes weight of driver, passengers, optional equipment and cargo. Cargo and load capacity limited by weight and distribution. **7. Maximum Trailer Weight** ratings are calculated

assuming a base vehicle, except for options necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See Order Guide for additional information. **8. For Turn-by-Turn Navigation**, antilock braking system and Directions & Connections Plan required. Turn-by-Turn Navigation not available in certain areas. Visit OnStar.com for coverage map. **9. Tire Pressure Monitoring System** does not apply to spare tire. **10. Premium paint** — available at extra cost. **11. Navigation Systems** — map coverage includes only the 48 contiguous United States and portions of Hawaii and Canada. Not available in Alaska, Puerto Rico and the Virgin Islands. **12. RDS** functions only where stations broadcast RDS information. **13. 2007 Frontal Safety Rating** — U.S. Government safety rating for both the driver and front seat passenger in the frontal crash test. Side Impact Safety Rating — U.S. Government safety rating for both the front and rear seats in the side-impact crash test. Government star ratings are part of the National Highway Traffic Safety Administration (NHTSA) New Car Assessment Program (www.safercar.gov). **14. Use only GM-approved wheel/tire combinations**. See your GM dealer for more details.

15. Actual colors may vary. **16. Unless you option into a spare tire**, there is no jack or spare tire in this vehicle. If you do not option into the spare tire, your vehicle has a tire sealant and compressor kit that uses a liquid tire sealant to temporarily seal up to a 1/4-inch puncture in the tread area of the tire. After using the inflator kit, it is recommended to take the tire to an authorized dealer for inspection and repair as soon as possible but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than 1/4-inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire one time before its expiration date. **17. The Bluetooth** word mark is a registered trademark owned by Bluetooth SIG, Inc. and any use of such mark by GM is under license. Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with the vehicle. © Copyright 2009 General Motors Corporation. All Rights Reserved.
