Manage your fleet your way. In Salesforce.

MapAnything Live® connects OnStar-equipped and activated GM vehicles 2015 and newer to Salesforce® enabling business process automation, reporting, tracking, and analytics.
**Field Sales**

Automate activity logging and spend more time selling.

- Log sales visits automatically
- Provide daily activity reports to management
- Track accurate mileage for reimbursement

**Field Service**

Transform Salesforce into a Business Operations Center.

- Provide accurate arrival times to customers
- Capture time spent at each stop for accurate, auditable billing
- Dispatch teams based on location, skillsets, and parts inventory

**Vehicle Telematics & Tracking**

Manage customer data, dispatch vehicles, and optimize routes from a single platform.

- Identify closest vehicle to a customer for dispatch
- Receive maintenance alerts
- Monitor driving habits to improve safety & compliance

View real-time location on an interactive map. Automate Salesforce® workflows. Get alerts and reports.
