

2027 Chevrolet Silverado 1500 WT

Preproduction model shown. Actual production models may vary.

Built for fleet durability and uptime.

The 2027 Silverado 1500 WT is built specifically for fleet and commercial customers who depend on reliable everyday performance. Designed with productivity and uptime in mind, it is engineered for the durability, serviceability and consistent operation fleet managers require.

Silverado WT's configurations support a wide range of common upfits¹ for a variety of vocations while its straightforward interior is easy to clean and simple for drivers to learn, helping streamline operation across large and diverse fleets.

Max. Available Torque

495 lb.-ft.²

Max. Available Trailering Capacity

13,700 lbs.³

¹ Equipment from independent suppliers is not covered by the GM New Vehicle Limited Warranty. GM is not responsible for the safety or quality of independent supplier alterations. ² When properly equipped. Requires available Duramax® 3.0L Turbo-Diesel engine. ³ When properly equipped. Requires available 5.7L V8 engine. Maximum trailering ratings are intended for comparison purposes only. Before you buy a vehicle or use it for trailering, carefully review the Trailering section of the Owner's Manual. The trailering capacity of your specific vehicle may vary. The weight of passengers, cargo and options or accessories may reduce the amount you can trailer.

September 2026

Silverado WT is ready for work.

With multiple cab types, a selection of capable engines and a suite of standard safety and driver assistance features¹, Silverado WT offers the flexibility and capability your fleet needs.
