

Fleet

Transform your fleet with OnStar® DualCam.

Real-time insights and dual-view innovation you can rely on.

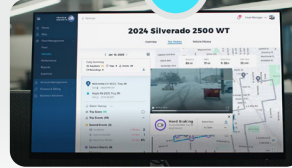

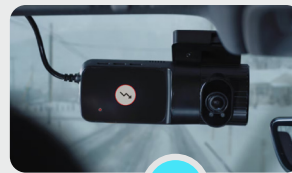

The road to driving safer and smarter

For businesses like Auto Driveaway Systems, LLC the road isn't just where their vehicles travel; it's where their operations, brand reputation and workforce meet the challenge of providing safe, efficient, and reliable vehicle transportation and logistics services to its customers across the United States. Having the tools and insight into driver behavior to understand and manage these dynamics means making their fleet safer, smarter and more productive.

OnStar DualCam¹ helps boost fleet safety and efficiency with dual-view cameras, real-time alerts and seamless integration with OnStar Vehicle Insights^{TM2} – making it an ideal telematics solution for Auto Driveaway.

How OnStar DualCam works

Dual-view cameras

Captures both in-cabin and front-facing footage to help enrich context and enhance safety analysis.

Real-time alerts

Offers drivers actionable audio and visual feedback to mitigate risks immediately.

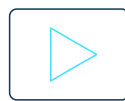

Seamless integration

Simplified access to video insights and automation of reporting through OnStar Vehicle InsightsTM.

Discover more with OnStar Vehicle InsightsTM

Gain clear insights into driving behavior trends to identify patterns and areas for improvement.

Quickly access event videos to review important moments with ease.

View additional recordings on demand, providing flexibility to revisit footage as needed.

1 Requires aftermarket camera hardware purchase and eligible active service plan. Availability and accessibility of data may depend on factors such as camera angle, view obstruction, power supply, device failure, cellular connectivity, transmission limitations. Does not include emergency or security services. May provide in-cab audible safety alerts, if enabled. Not all issues will deliver alerts. 2 Terms Apply. Available on select properly equipped 2015 model year and newer GM vehicles (excludes Volt, Low Cab Forward Trucks and GM vehicles built without OnStar hardware, which includes but is not limited to select base Chevrolet and GMC trucks). Requires a connected services plan. Fees, services, and availability subject to change without notice. Does not include emergency or security services. Diagnostics capabilities vary by vehicle model. Not all issues will deliver alerts. See gmfleet.com for details and limitations.

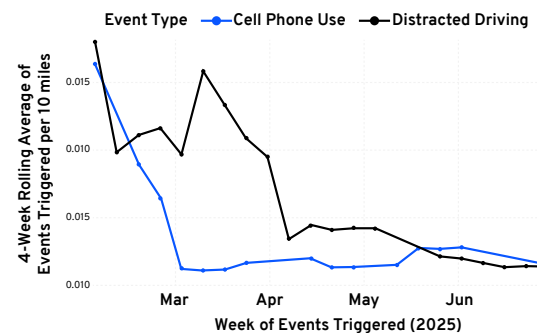

Pathway to safer, empowered fleets

As a leading vehicle transportation and logistics provider, Auto Driveaway is always looking for innovative ways to achieve its goal of zero incidents and accidents, including addressing risky driver behavior in its own fleet of vehicles. Limited in-vehicle visibility made that difficult, especially to combat cell phone use until they implemented OnStar DualCam¹ and – within just eight weeks – saw a significant drop in cell phone use within its own fleet.

Through OnStar Vehicle Insights^{TM2}, Chief Operating Officer Matthew Salm reviewed daily reports to analyze OnStar DualCam footage and identify driving behaviors that needed improvement. In addition to sharing these reports with Operations and Safety leadership each week, Salm prioritized reducing cell phone use to improve driver behavior across all of Auto Driveaway, to deliver on its unwavering commitment to safety and compliance.

Reduced distracted driving and cell phone usage

- Auto Driveaway’s drivers were observed over the course of **eight weeks**.
- The frequency of cell phone usage was measured **every 10 miles driven**.
- Over the final four weeks, researchers observed a **65% reduction in cell phone use overall**.

About Auto Driveaway

Auto Driveaway Systems is a trusted leader in nationwide vehicle and truck transportation, specializing in fast, safe and reliable relocation services for corporate and commercial fleets. With over 70 years of expertise, a network of nearly 1,000 professional drivers and state-of-the-art technology, they ensure your vehicles are delivered safely and ready for immediate use – all backed by the power of OnStar.
